

COALITION CABINET CRISIS NOW FACED

Lloyd George for Compulsion
of All Men, and Asquith
Opposes.

NEWSPAPERS AT ODDS ON RECRUITING PLANS

Some Would Force All Men of
Military Age Into Army; Others
Support Government.

LONDON, March 24.—Rumor in the lobby of the house of commons last night was busy with the discussion of a possible cabinet crisis over the question of the enlistment of married men. According to some reports, David Lloyd George desires compulsion of all men of military age, while Premier Asquith is opposed to any such measure.

The London morning papers all discuss the recruiting difficulties at great length. The Times takes the leading place as the advocate of universal compulsion; the Chronicle, on the other hand, supports the government's present position. It declares:

"Many of the loudest critics of Premier Asquith's attitude are far more anxious to overthrow the prime minister and destroy the coalition government than to add men to the army."

Hold Only Possible Remedy.

"The only possible remedy for the present middle," the Times says, "is to extend the military service act to all men of military age, married and single alike, and thus abolish the manifest unfairness of a system which is neither voluntary nor compulsory, but the kind of half-measure which elements of both. The main count against the government at the present time is that during the last year of the war, the vast number of men were deliberately induced to attest on the plain understanding that those who remain behind would be less favorably treated than those who attested."

In connection with reports that David Lloyd George, the munitions minister, is likely to appear soon as an advocate of universal conscription, the Times remarks: "No one understands the situation better than the minister of munitions."

Supports Government.

The Daily Chronicle, supporting the government's attitude, says:

"It is known that Premier Asquith has refused to be a party to any further extension of the compulsory principle. It is impossible to regard compulsion as having so far proved a great recruiting success. Its direct addition to our forces has been small. On the other hand, it has quite altered the feeling with which men regard the military service. A majority of the Derby recruits attested last year in the spirit of volunteers, but they have been called now in the spirit of conscripts. Since the compulsory principle has been set up the spirit of the men has undergone a change. They go to the colors because they are compelled to go, and one of their first questions is why they should be compelled to go, so that somebody else is not. This change in attitude explains much of the married men's agitation."

Extension of Age Limit.

While there has been no official announcement to justify the reports that the military age limit is to be extended to men of forty-five years, the first step in this direction is indicated in instructions issued to recruiting depots for field artillery, garrison artillery and army veterinary corps. These instructions state that the recruiting officers may have their discretion hereafter in enlisting men between the ages of forty-one and forty-five years.

Coalition Candidate Wins.

The coalition government's candidate, Percy Alfred Harris, won a two-to-one victory over Thomas Gibson Bowles in the bye election held yesterday for member of the House of commons to represent the Harborough division of Leicestershire.

Mr. Bowles ran as the "married men's candidate," and had the support of the so-called "ringer-up" party, which demands a freer policy on the part of the government, particularly as regards recruiting. He had the backing of the Times, Post and Mail.

The voting resulted: Harris, 7,826; Bowles, 3,711.

JUST LEARNS OF DEATHS OF MOTHER AND BROTHER

Grace Teiper, However, Is Not Told
That Another Brother Is Accused
of Murderous Attack.

BUFFALO, N. Y., March 24.—Miss Grace J. Teiper has just been told that her mother and brother Frederick are dead, the victims of a murderous attack while riding from Orchard Park to Buffalo in the family automobile the night of January 30, and that the injuries which have kept her in the hospital for six weeks were inflicted by the murderer. She was not told that another brother, John Edward Teiper, is in the county jail charged with the crime.

The prosecutor probably never will obtain from Miss Teiper any testimony that would tend to clear up the circumstances of the double murder, the hospital surgeon said. She is suffering from retrograde amnesia. Her mind is a blank as to what occurred during the two hours preceding the murders, it is said, and she received the news of the murders as one learning of a few unknown tales, so as to have them ready for instant use. These tales are ready for instant use. These tales are ready for instant use.

Various Forms Of Headache

"It is necessary in order to treat headache properly, to know the cause which produces the affection," says Dr. J. W. Ray of Brooklyn. "In treating the cause of a disease without knowing what causes give rise to it, and we must remember that headache is to be treated according to the cause. We must know the particular cause of a headache in order to treat it properly. A remedy intended to counteract the cause which produces the headache, but we must also give a remedy to relieve the pain until the cause of the headache has been removed. To assist this purpose, anti-kidney tablets will be found of considerable benefit and particularly the headache of women."

When we have patient subject to regular attacks of sick headache, we should caution them to keep their bowels regular, for nothing is better than "A-K Tablets," and when he feels the least sign of an oncoming attack, he should take two A-K Tablets. Such patients should always be instructed to keep a few anti-kidney tablets as a means to have them ready for instant use. These tablets are ready for instant use. These tablets are ready for instant use.

COL. ROOSEVELT IS DUE TO RETURN THIS EVENING

With Wife. Will Arrive at New
York From Six-Week Journey
Through West Indies.

NEW YORK, March 24.—Col. and Mrs. Theodore Roosevelt are due to arrive here this afternoon on the steamship Maturo from a six-week journey through the West Indies. Some of the colonel's admirers wanted to send a committee down the bay to welcome him, as they did when he returned from the African hunting trip expedition in 1912, but they learned from the secretary, John W. McGrath, that Mr. Roosevelt desired no demonstration in his honor. The half-formed plans were abandoned.

Mr. McGrath has made arrangements to meet the returning voyagers at the quarantine station. A few of Col. Roosevelt's friends and a small party of leaders of the progressive party promised to be at the Brooklyn pier when the steamer docked. It was expected that Col. Roosevelt will go at once to his Oyster Bay home.

LEAVE TO TAKE CHARGE OF BANK IN PHILIPPINES

Dr. H. Parker Willis and C. C. Robinson Start for Pacific Coast
to Sail for the Orient.

Dr. H. Parker Willis, secretary of the federal reserve board, began his six months' furlough with the close of the day's business yesterday and started for the Philippines, where he is to take charge of the new Philippine currency system, putting it into operation as president of the Insular Bank of the Philippines. C. C. Robinson of New York, selected for vice president, joins him at Baltimore, and will proceed to the Pacific coast with him, where they will take the first boat available.

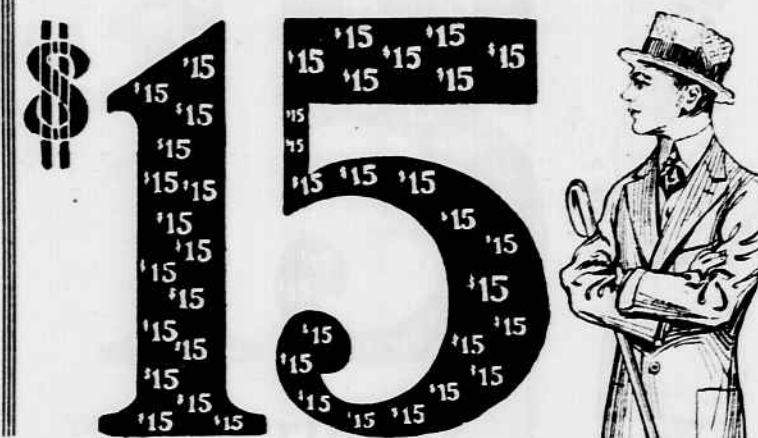

Mr. Robinson's bride of a few days will accompany him. Mr. Robinson was wedded this week and will make the Philippines his honeymoon trip. The party will proceed to Chicago, thence to San Francisco, where they will take the ship to Manila. It is said that it is necessary to put the new currency system into operation. It is possible that Mr. Robinson may succeed him as president.

Dr. Willis is the author of the Philippine currency system. It is founded upon the federal reserve system, the original bill for which he also drafted. The Insular Bank of the Philippines absorbs several government financial institutions. The law is broader than the American system, creating what seems actually a central bank.

Draftsmen to Attend Banquet.

Arrangements for a local delegation to attend the banquet of the American Society of Marine Draftsmen, which is to hold its annual convention in Norfolk, Va., April 21-22, were discussed at a meeting of the Washington navy yard branch of the society held last night at the Norfolk Hotel. The meeting followed the business session. Lieut. R. K. Turner, U. S. N., lectured on "Ship Design," after which a buffet luncheon was served.

Goldheim Spring Suits To Your Order at

Are Certainly Wonder Values!

More and more men are learning of the goodness—of the excellent style—of the fine materials of Goldheim Spring Suits, made to your measure, for Fifteen Dollars.

All the style—all the workmanship—that usually go into the usual \$25.00 suits.

There are 500 new spring styles here for your choosing—a selection that comprises the pick of the choicest and smartest weaves. Your satisfaction backed by our 41 years of experience as tailors. Style, quality and fit—everything that goes to make clothes satisfaction—must please you, or we'll refund the purchase price.

If you want to give yourself a square deal in the matter of spring clothes come and see.

All Clothes made by us Cleaned, Pressed and kept in Repair FREE OF CHARGE. Linings of coat, vest and trousers guaranteed for 12 months.

YOUNG MEN'S TAILOR
GOLDHEIM'S
SUIT TO ORDER, \$15.

HAY ARMY BILL REACHES SENATE

Measure Passes House by
Vote of 402 to 2—Carries
140,000 Enlisted Men.

The Hay bill for increasing the army was laid before the Senate today, having passed the House late yesterday by 402 to 2. The distinctive minority was composed of Representative Britton of Illinois and Representative Landon of New York, the only socialist member of the House. The Illinois republican opposed the bill because he wanted a much larger one, and the socialist opposed it because he wanted no army increase whatsoever.

In the final series of votes on amendments Representative Kahn of California again was defeated on his amendment to increase the regular army to 220,000 instead of 170,000, as provided for in the Hay bill. The vote on this was 213 to 191. All provisions for the expansion of the army were stricken from the bill by 221 to 190, and the Anthony amendment to equalize differences in promotion of the various branches of the army was rejected, 189 to 198.

To Build Up Militia.

Reserves providing for 10,000 enlisted men as the peace strength of the standing army, exclusive of officers, hospital and quartermaster corps and unassigned recruits, the bill as passed by the House provides for the building up of a force of 425,000 federalized national guardsmen within five years. It provides for an officers' reserve corps of 40,000, for a complete industrial reserve and for new recruiting systems for both the regular army and the National Guard.

It also contains an authorization for summer training camps, from which a third force of federal volunteers is expected to grow, and provides that national guardsmen, who will receive the benefits of the militia pay feature of the bill, shall be subject to immediate draft into the federal service in wartime.

Close to Senate Bill.

During the process of amendment in the House the bill was brought appreciably closer to the measure prepared by the Senate committee in several respects. Important among these was the insertion of the Senate bill's provisions as to the regular army enlistments, which are expected to rapidly produce the desired reserve, on this section chairman Hay of the military committee, the bill's sponsor, was defeated. The only other important amendment carried by a vote of 221 to 190, despite his opposition, was that striking out the entire section which proposed to lay the government's military project on a nitrogen manufacture project which aroused opposition on the ground that it involved immense expenditures in conjunction with private enterprise.

Boy's Skull Fractured by Fall.

While playing in a new house at 745 12th street southeast Tuesday evening, Ernest P. Gowler, twelve years old, of 1118 I street southeast, fell from a second-story window and fractured his skull. He was taken to Providence Hospital, where it was stated his condition is serious.

SUNDAY CALLS THE BLUFF AND GETS HOPKINS MEN

Evangelist Hits the Trail at Baltimore Meeting in Challenge to 150 Students.

Special Dispatch to The Star.
BALTIMORE, March 24.—Billy Sunday, after hurling challenge after challenge to a delegation of about 150 Johns Hopkins students who attended the meeting for men only at the tabernacle, last night climaxed his appeal for converts, climaxed the meeting and climaxed his campaign here so far by springing from the platform, plunging down the sawdust aisle and "calling the bluff" of some of those students who promised to hit the trail if he would come for them.

As the evangelist himself "hit the trail" on his marathon from the platform, three of the university students were on their way to greet him. He rushed past these, stood up on a bench in front of the delegation, at which the eyes of thousands of men were turned, and began waving his hand and calling to the youths to "make good." He stood there for a minute or two, beside Dr. Howard A. Kelly, the Rev. Dr. Henry D. Wardlaw and several persons.

Makes Society Women Wince.

"Billy" Sunday invaded fashionable Roland Park yesterday. Society from town and park met at the home of Carl Gray, president of the Western Maryland railroad, to hear him. The dynamic evangelist made some of the 550 women wince when he told them that if their coats were Christians and their shoes were not, their coats were the better women and of more value to humanity.

Cheers From 14,000.

The congregation of 14,000 sent up a salvo of cheers and handclapping that made the great hall thunder and made the handful of women who, despite the aspersions being about on the outside in the home of bearing something, wonder what had happened. Sunday had singled out the Hopkins students from the first and leveled his broadsides of persuasion at them from the moment, concluding his sermon on "The text 'Be sure your sins will find you out,' he asked for converts."

The attendance at the evening meeting was 14,000; that at the afternoon meeting 7,000, making a total to date for the campaign, \$38,500. The collection Wednesday, announced yesterday, was \$7,785, bringing the total up to that date to \$26,292.50.

Brought Here for Test.

New Steel Hoister Atlas to Be Tried Out by Army Engineers.

To be tried out before being accepted by the army engineer service authorities, the new steel hoister Atlas was yesterday afternoon brought up from Alexandria, where it was built, and berthed at the engineer wharf on the Potomac Park side of Washington. The tests, which will continue ten days, will be started Monday next at the stone wall on the southern side of the Virginia channel above the bridges. The Atlas is a modern craft of its type and is to be used in harbor and river improvement work about this city and in the Potomac and other tributaries of Chesapeake Bay, along its western shore, to the York river.

The new hoister is the first vessel of any size to be built at Alexandria in many years and was constructed in the berth formerly used for the building of big three and four masted schooners. In three years in the late eighties seven big schooners were built at Alexandria, but of the fleet not one is now afloat.

LOVER OF SLAIN GIRL IS PUT UNDER ARREST

Killing of Eva Gregory in Kentucky
Believed by Authorities to Have
Been Caused by Jealousy.

ELIZABETHTOWN, Ky., March 24.—A warrant for the arrest of Will Roy Dupin, twenty-four years old, has been issued here as a result of inquiry into the killing from ambush of Miss Eva Gregory, eighteen years old, near Solway, Hardin county, Tuesday. Dupin is employed on the farm of John Monroe, father of Ella Monroe, who was arrested in connection with the case Wednesday.

Miss Monroe's detention was based on circumstantial evidence, the authorities saying she had been infatuated with the same man who was paying attention to Miss Gregory. Miss Monroe's examining trial will be held Tuesday. She is twenty-one years old. It is charged that Dupin borrowed the shotgun with which it is believed Miss Gregory was killed. He is said to have shot one of two shells he also borrowed at a target and placed the other on a mantle in the Monroe home. The latter shell could not be found when officers arrived to arrest Dupin. Miss Monroe denies any jealousy, but says the young man, who, it is said, was attentive to her and Miss Gregory, came to see her often before he let her letters a week. She denies knowing whether he went to see the murdered girl while here or had written to her.

Seventy player-pianos have been sold ---but thirty remain to be sold during this remarkable sale

Copyright, 1916, Newton Piano Co.

Success comes where it is courted and deserved

Everything that could be suggested as being of benefit to those who should want to buy a good piano was put into this sales plan to make it the success it has been.

First. Every effort was put forth to bring the price down to the very last dollar.

Second. Every week's extra time that was possible to add to regular piano terms was added—the time being stretched out to one hundred and sixty-two weeks (thirty-nine months) as against thirty months—the usual terms.

Third. The usual form of piano guarantees was entirely dropped, and, in its stead, a guarantee as strong as could be written in the English language was jointly signed by both the manufacturer and ourselves (as shown herewith) and given to the purchaser of each and every instrument.

Fourth. It was thought that by offering to give the purchaser his money back would best assure him that he was getting a "square deal," and this also was included in the plan. So to every purchaser under this sales plan we said: "Try this piano for thirty days in your home. If you are not satisfied, 'Your Money Back'—and no questions asked."

Fifth. The idea was also advanced that a thirty days' trial of a piano was hardly sufficient—so that objection was met by agreeing to exchange the piano for any other new piano sold by us of equal or greater value without the loss of a single penny, at any time up to within one year from the day it was purchased.

Sixth. And, finally, the fear of losing the piano and what had been paid upon it, in case of death of the purchaser before the piano was entirely paid for, was overcome by our proposing to voluntarily cancel all further payments and turn a clean receipt for the instrument over to the family of the deceased.

Big, broad-gauged, liberal plan of merchandising— isn't it?

CONCERT

You are cordially invited to attend a recital of the Newton Player-Piano in our auditorium tomorrow (Saturday) evening at 8 o'clock.

NEWTON
ARTHUR JORDAN, Owner
During this sale the store will remain open evenings until 9 o'clock

\$5

The balance on the piano is payable one dollar and 50 cents weekly. The balance on the player-piano is payable 2 dollars and 25 cents weekly. This gives you 162 weeks' time in which to pay for the piano, and 174 weeks' time in which to pay for the player-piano.

are credited to the price of the instrument you select. This leaves a balance of two hundred and forty-two dollars, if you select the piano, or a balance of three hundred and ninety-two dollars if you select the player-piano.

How to obtain one of these instruments

To take advantage of this unusual sale all you have to do is to send or bring in five dollars, for which we will at once give you a receipt.

This five dollars is credited to your account, leaving two hundred and forty-two dollars to be paid.

The plan then allows you one hundred and sixty-two weeks' time in which to pay this amount—at the rate of one dollar and fifty cents a week. Or you may make your payments monthly, if you prefer.

You can select your piano now, or at any time within the next few days. It will be delivered immediately, or held for later delivery, if you wish. The date of delivery is wholly optional with you.

If not convenient for you to personally select your piano we will make the selection for you under your instructions, with the understanding that if at the end of a thirty days' trial the piano is not satisfactory we will refund your money.

puts a Newton player-piano in your home the same as the piano

There is no large cash payment to be made in buying under this plan. The terms under this plan are: One dollar and fifty cents a week, if you decide upon the piano, or two dollars and twenty-five cents a week if you decide upon the player-piano. The five dollars you pay is paid as a privilege to participate in the many advantages of this sale—more like an initiation or entrance fee—with this difference—that your five dollars under this plan are credited to the price of the instrument you select. This leaves a balance of two hundred and forty-two dollars, if you select the piano, or a balance of three hundred and ninety-two dollars if you select the player-piano.
